119 lotes

An aerial architectural rendering of a residential development. In the foreground, there are several low-rise, modern houses with flat roofs and large windows, arranged in a grid-like pattern with winding roads. In the middle ground, there are several tall, modern high-rise apartment buildings with glass facades. The background shows a cityscape with more buildings and a hazy sky. The overall scene is set during the golden hour, with warm sunlight and long shadows.
